**Jiro Okura Exhibit Opens at Tubac Center of the Arts**  
**Tubac Center of the Arts**

see above

*April 15, 2024, Tubac, AZ. Tubac Center of the Arts, (TCA) announces the opening of the work of this internationally known artist with the last public showing of his work. Featuring wood sculptures and sumi ink drawings, Okura's work has a timeless and international appeal. Other examples of his work are part of the permanent collection of major art museums throughout the U.S. including the University of Kansas, the Smithsonian Asian Art Museum, the Asian Art Museum of San Francisco, and both the Chicago Art Institute and St. Louis Museum of Art*

*Curated by Jane M. Farmer, this exhibit showcases Okura's work in three-dimensional wood art that solidified Okura's independence from a more traditional work to a more direct interpretation of his relationship with nature. During his lifetime (1935-1994) he traveled throughout the United States but especially responded to what he saw in nature in the southwest where he absorbed the landscape and scale of these open spaces.*

*Okura's work has never been strongly influenced by the work of other artists, but was consistently concerned with a very direct interpretation of his own relationship with nature. He first traveled to the American southwest in 1969 and always loved this part of the world. Many of the works on display come from the collection of his sister, Taka Okura, a current resident of Green Valley, Arizona.*

*Visitors can learn more and plan their visit by going to TCA's website at <https://tubacarts.org>.*

**About Tubac Center of the Arts**

*Tubac Center of the Arts is an artistic gem in the Southwest. TCA is a member supported nonprofit offering a full range of arts programming and seasonal exhibits that are not to be missed including nationally juried art exhibitions, opportunities for artists to exhibit their work, art workshops, lectures, a performing arts series, special events, a children's summer arts program, and a beautiful gift shop.*
